

Est. 1965

CORPORATE DATA

Company Name:	REM Electronics Supply Company, Inc.
Year Incorporated:	1965
State of Incorporation:	Ohio
DUNS Number:	018414847
CAGE Code:	078L2
UEI:	QW22JV3U2FU8

CAPABILITY STATEMENT

For over 50 years REM has been a supplier and contract manufacturer of a wide variety of electronic components. Our highly skilled, value-added manufacturing and R&D department is ready to help your agency reduce costs and lead times. With our flexibility to assist with design, sourcing and replacement of obsolete and hard-to-find parts, we ensure uninterrupted service for our customers. As resolution experts, we have built a reputation for successfully partnering with our clients to resolve their complex manufacturing and maintenance requirements.

CORE COMPETENCIES

- SMT & Through Hole Electronic Components
- Printed Circuit Board Layout & Assembly
- Custom Controls
- Machine & Custom Cable Assembly
- Category 5, 5e & 6 Cable Assembly
- Flat Ribbon Cable Assembly
- Wire Prep, Strip, Terminate
- Kitting Services
- Component Prep
- Product Assembly & Testing
- Tooling & Fixture Services
- Product Modification
- 3D Printing & Rapid Prototyping

DIFFERENTIATORS

- **Niche Focus:** Deep expertise and tailored offerings to meet unique needs.
- **Flexibility:** Provide personalized and customized solutions compared to larger companies.
- **Agility:** Can respond quickly to market changes and customer demands.
- **High-Quality:** Prioritizing craftsmanship & precision. We create products that meet or exceed customer expectations.
- **Research & Development:** Improving product features & finding unique solutions to industry challenges.
- **Local Production & Support:** Domestically manufactured products offer shorter supply chains, faster delivery times, and contributes to the local job market.

PAST PERFORMANCE

- **Army – Fort McCoy Total Force Training Center** | Serviced logistical equipment to agency
- **Ajax TOCCO Magnethermic** | Primary client for over 30 years, supported and supplied a wide variety of control & power supply PCB assemblies, custom design pulse transformers and other supporting products.
- **Aptiv PLC (formerly Delphi Automotive Systems - GM)** | Supported their complex wire harness testing system for over 30 years via hardware revisions and upgrade implementations.
- **Panelmatic Youngstown, Inc.** | A prime contractor for whom we were subcontracted to supply various electronic components and sub-assemblies. (SPE7MC-21 & SPE7MC22)
- **Steris Corporation** | Long standing relationship of supplying proximity sensors and various other components for medical and healthcare equipment.
- **Syntron MH (formerly FMC Technologies Material Handling)** | For over 25 years updated & customized wide range of vibratory equipment controls, manufactured in our Warren, Ohio facility.
